Patel Vraj Nileshkumar

Anand, Gujarat | vrajpatel24905@gmail.com | +91 70439 58725
LinkedIn | GitHub | LeetCode | HackerRank

Professional Summary

Computer Science and Engineering undergraduate with a distinguished academic record and hands-on project experience in **AI/ML** and **Software Development**. Developed applications integrating Natural Language Processing, **LSTM**-based prediction, **RESTful APIs**, and Database Systems using Python, JavaScript, TensorFlow, React, and Django, with cloud deployment on **AWS**. Achieved a **9.72 CGPA,** earned **Gold Medal** in my university, and qualified in both **GATE 2026 Computer Science and Data Science & Artificial Intelligence** papers. Combines analytical reasoning and structured problem-solving with strong foundations in data structures and algorithms, demonstrated through **300+ LeetCode** problems solved and a **5-star Java** rating on HackerRank. Brings a collaborative approach, adaptability, and a commitment to continuous learning.

Education

B.Tech - Computer Science & Engineering (IoT) 2023 - 2027
G H Patel College of Engineering & Technology, CVM University
CGPA: 9.72/10

Class XII - G.H.S.E.B. 2023
Percentage: 83%

Class X - G.S.E.B. 2021
Percentage: 81%

Technical Skills

Programming
Java, Python, JavaScript, C++, C, SQL

Databases
MongoDB, PostgreSQL, SQL Server

Web Technologies
React, Node.js, Express.js, Django, HTML5, CSS3, RESTful APIs

Version Control
Git, GitHub

AI and Machine Learning
TensorFlow, Scikit-learn, Keras, Tableau, Matplotlib, NLP, LSTM, TF-IDF, cosine similarity

Tools
Visual Studio Code, PyCharm, Eclipse, Nmap, Cisco Packet Tracer

Cloud (Services)
AWS : EC2, S3, IAM, Amplify, VPC, Application Load Balancing (ALB), RDS, CloudFront, EC2 Auto Scaling, Secret Manager

Productivity Suites
Microsoft Word, Excel, PowerPoint, Office 365

Core Fundamentals
Data Structures and Algorithms, Object-Oriented Programming, DBMS, Computer Networks, COA, Artificial Intelligence, Machine Learning, Discrete Mathematics

Soft Skills
Complex Problem Solving, Teamwork & Collaboration, Effective Communication, Learning Agility, Prioritization, Conflict Resolution, Leadership

Experience

Web Development Intern - Rise Technologies May 2026
VisionHR - Human Resource Management System

- Developed a MERN-based HRMS with employee onboarding, attendance and leave workflows, JWT authentication, and role-based access control.
- Integrated Amazon S3 document storage with 15-minute pre-signed URLs and implemented attendance-based payroll calculations and PDF payslip generation.

AWS Cloud Summer Training - BVM Engineering College Jun 2026

- Completed AWS Academy summer training in cloud fundamentals, architecture, core services, pricing, and support. Earned the AWS Academy Graduate - Cloud Foundations - Training Badge

Projects

Version Control System | GitHub

React, Node.js, Express.js, MongoDB, AWS EC2, S3, Amplify, Git

- Built a browser-based version control application supporting 100+ simulated commits, repository updates, and interactive commit history visualization.
- Designed RESTful APIs for repositories, commits, and users; deployed the backend on EC2, repository storage on S3, and the frontend on AWS Amplify.

Pravah - AI-Powered Traffic Management

React, Leaflet.js, Django, MongoDB, TensorFlow, LSTM

- Built a full-stack traffic management application using LSTM networks for traffic flow prediction and React with Leaflet.js for routing, incident reporting, and traffic light management.
- Implemented a Django backend with MongoDB to process community reports and sensor inputs for traffic monitoring.

Job Recommendation System | GitHub

Python, scikit-learn, Streamlit, Selenium, BeautifulSoup

- Developed an NLP pipeline using TF-IDF and cosine similarity to rank 600+ job listings against skills extracted from uploaded PDF resumes.
- Curated 650+ listings using Selenium and BeautifulSoup and deployed a Streamlit interface for resume uploads and ranked job recommendations.

MediSure-360 - Pharmacy Management & POS | GitHub

React, Node.js, Express.js, MongoDB, Mongoose, Chart.js, JWT

- Built a MERN pharmacy application with inventory management, POS billing, stock updates, expiry alerts, printable receipts, JWT authentication, and bcrypt password hashing.
- Implemented RESTful APIs and Chart.js dashboards backed by MongoDB aggregation pipelines for revenue, sales trends, top-selling medicines, and stock health.

Achievements and Awards

GATE 2026 - CS - Qualified | **All India Rank 11,497** | Score 453

GATE 2026 - DA - Qualified | **All India Rank 4,561** | Score 438

Academic Excellence – Gold Medalist

Coding - 300+ LeetCode problems solved | **5-star Java** rating on **HackerRank**

Hackathons - Smart India Hackathon (2024, 2025) and Nexathon (2025)

Certifications

AWS Academy Graduate - Cloud Architecting - Training Badge 2026

SAP Advance Course (Edunet) 2025

NPTEL - Programming in Java 2025

Alpha - Full Stack Web Development 2024

Udemy - The Complete Python Pro Bootcamp 2024

C++ Course: Learn the Essentials 2024
